

List overview for normal users!

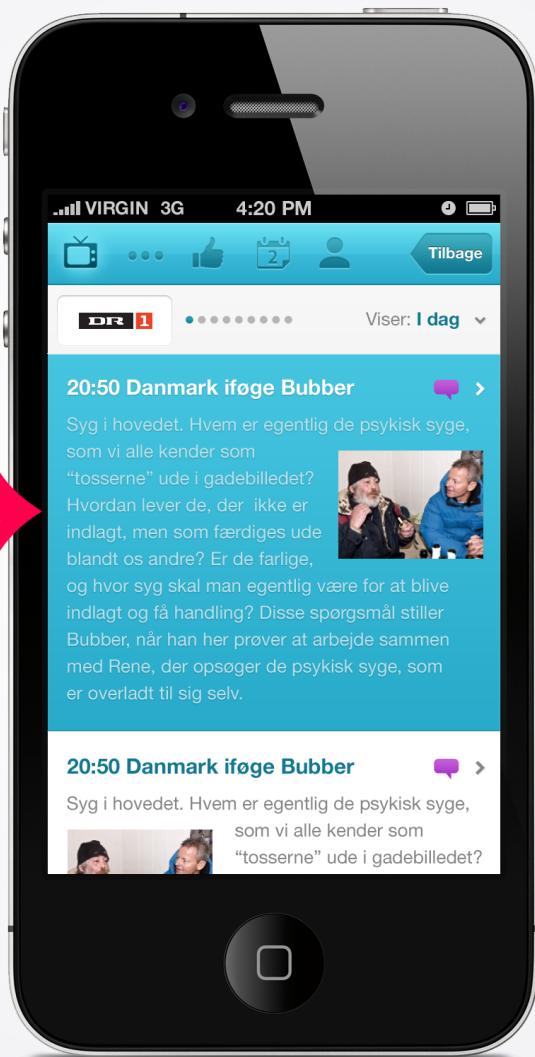

DAY VIEW FOR PRO/+ users

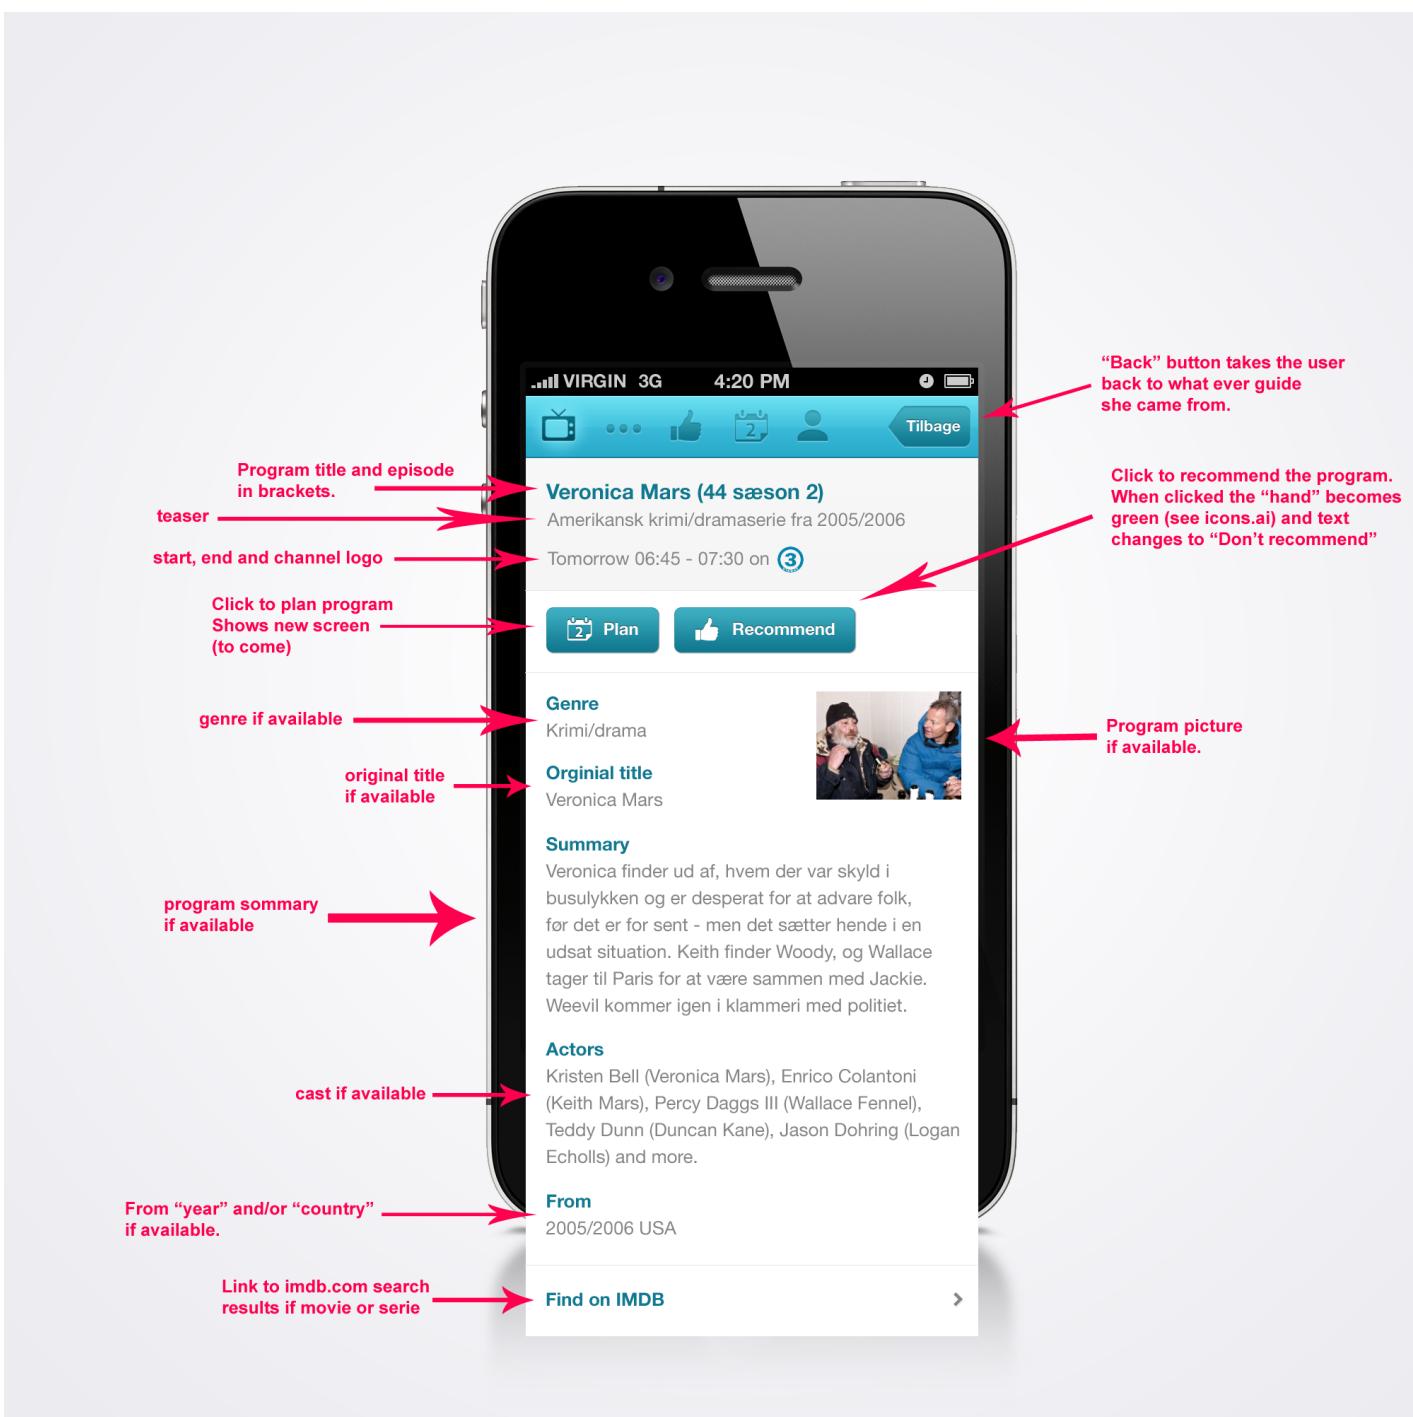

Please see layer "TV-guide/Day" first which contains comments relevant for this view as well....

Day view for Pro/+ users is exactly the same as view for normal users.

BUT Pro/+ users also gets trimmed "about" (max 250 chars maybe?) and image for each program.

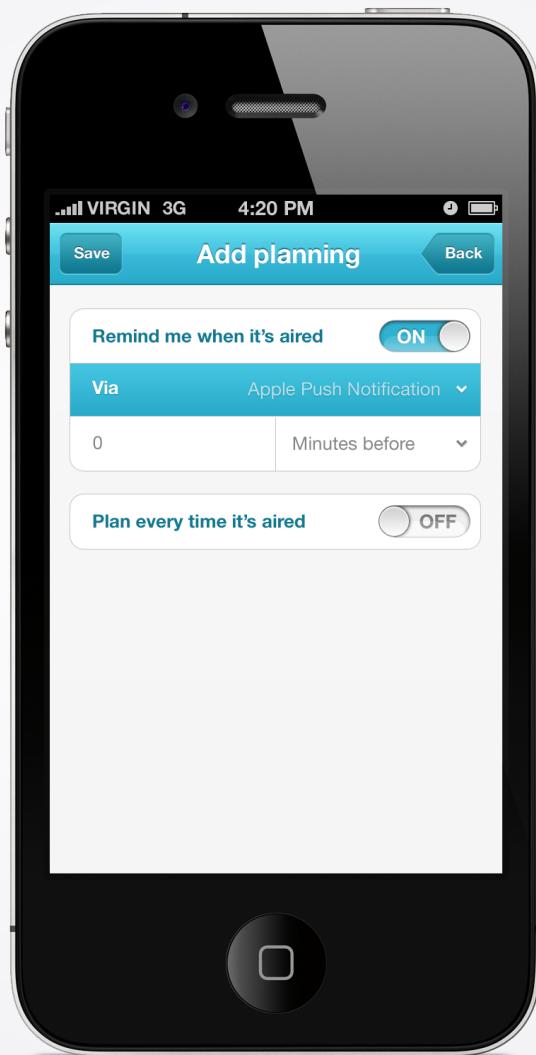

If about is not available, default to "teaser" if available. Or else just title and time.

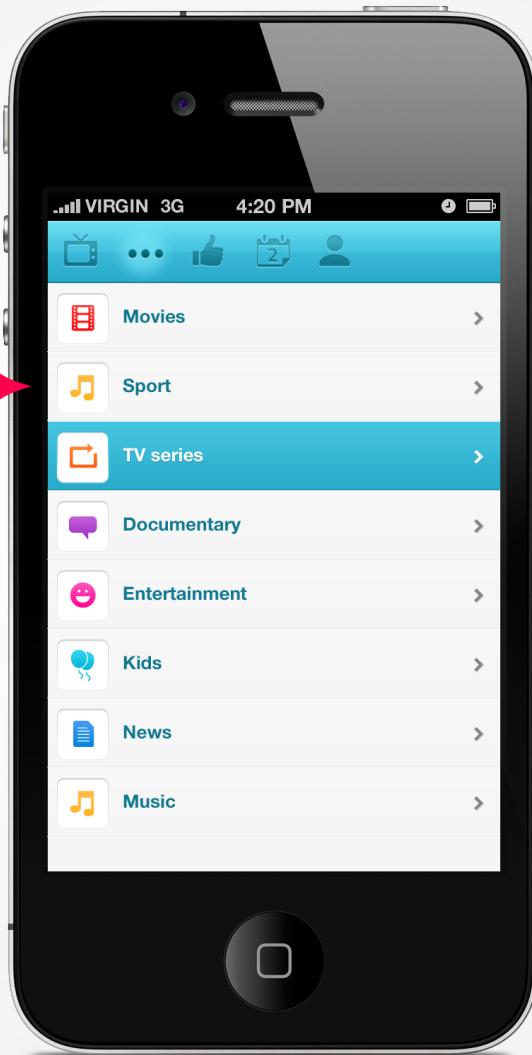

Please see “TV-guide/Plan” layer.

This is just an example of “off” view, when one of the fields are off.
Everything else is described in TV-guide/Plan layer.

A vector sports icon is on its way →

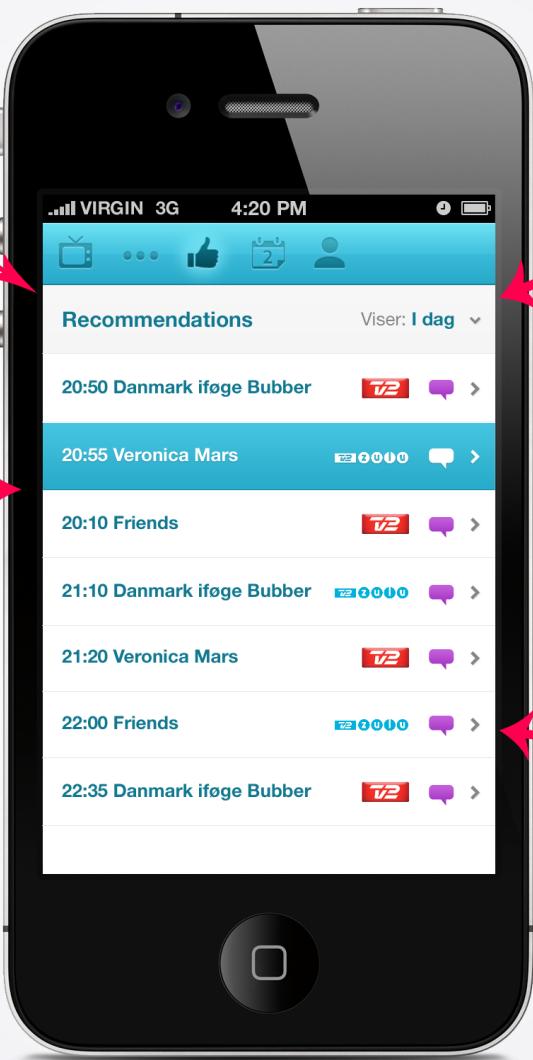

Lists all available categories for the category guides.

The API types are:

movie
sport
serie
documentary
entertainment
kids
news
music

Simple headline

The guide shows recommended programs on users favorite channels.
The lists is ordered by air time.

Fields are time+title+channel icon
+ type icon

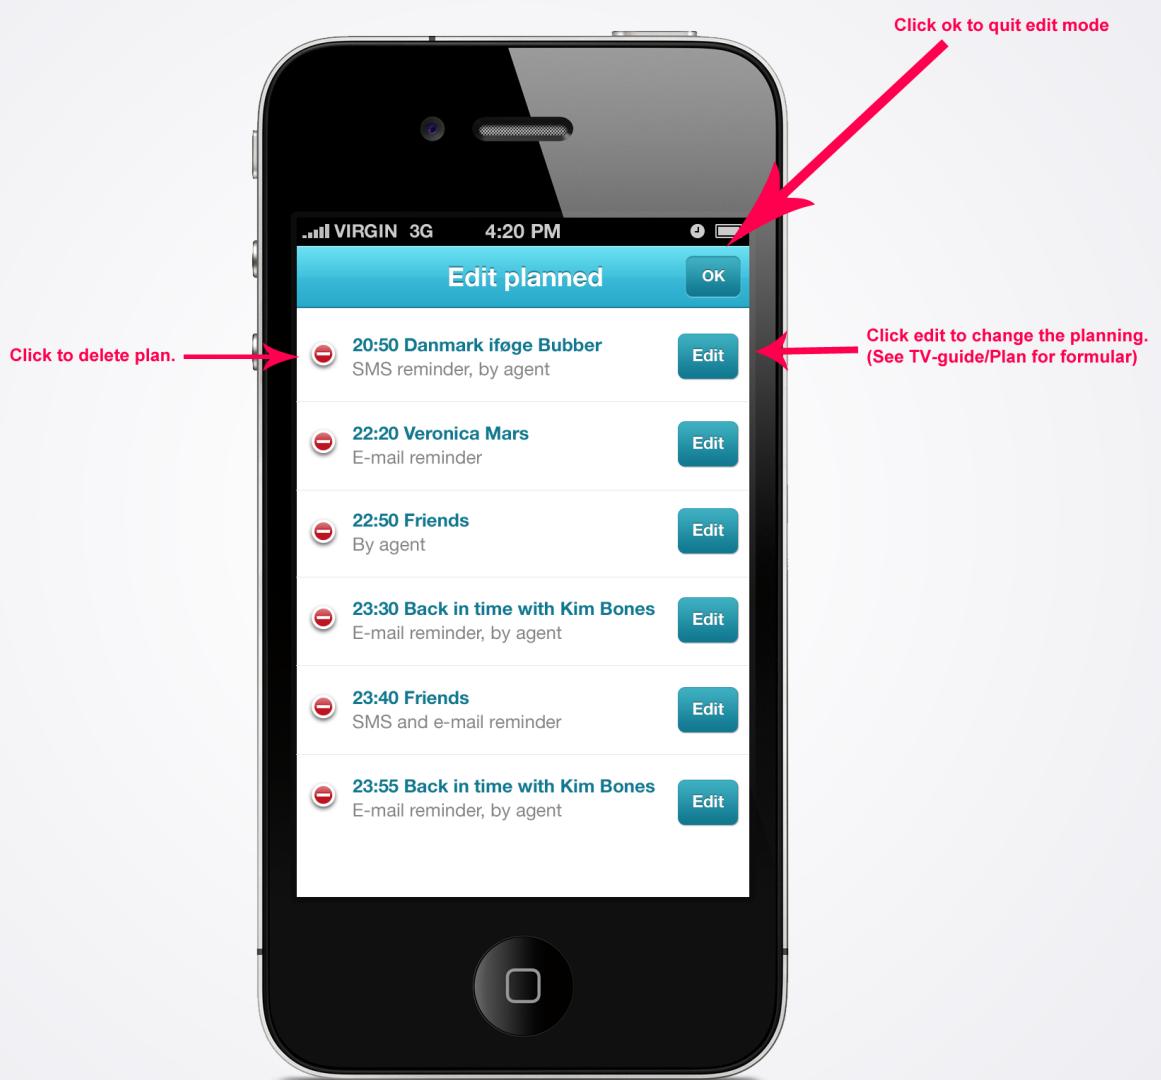

Pro/+ users gets extended view
with summaries and pictures if available.
(Defaults to teasers if nothing else is available.
(See tvguide/day pro/+ users layer)

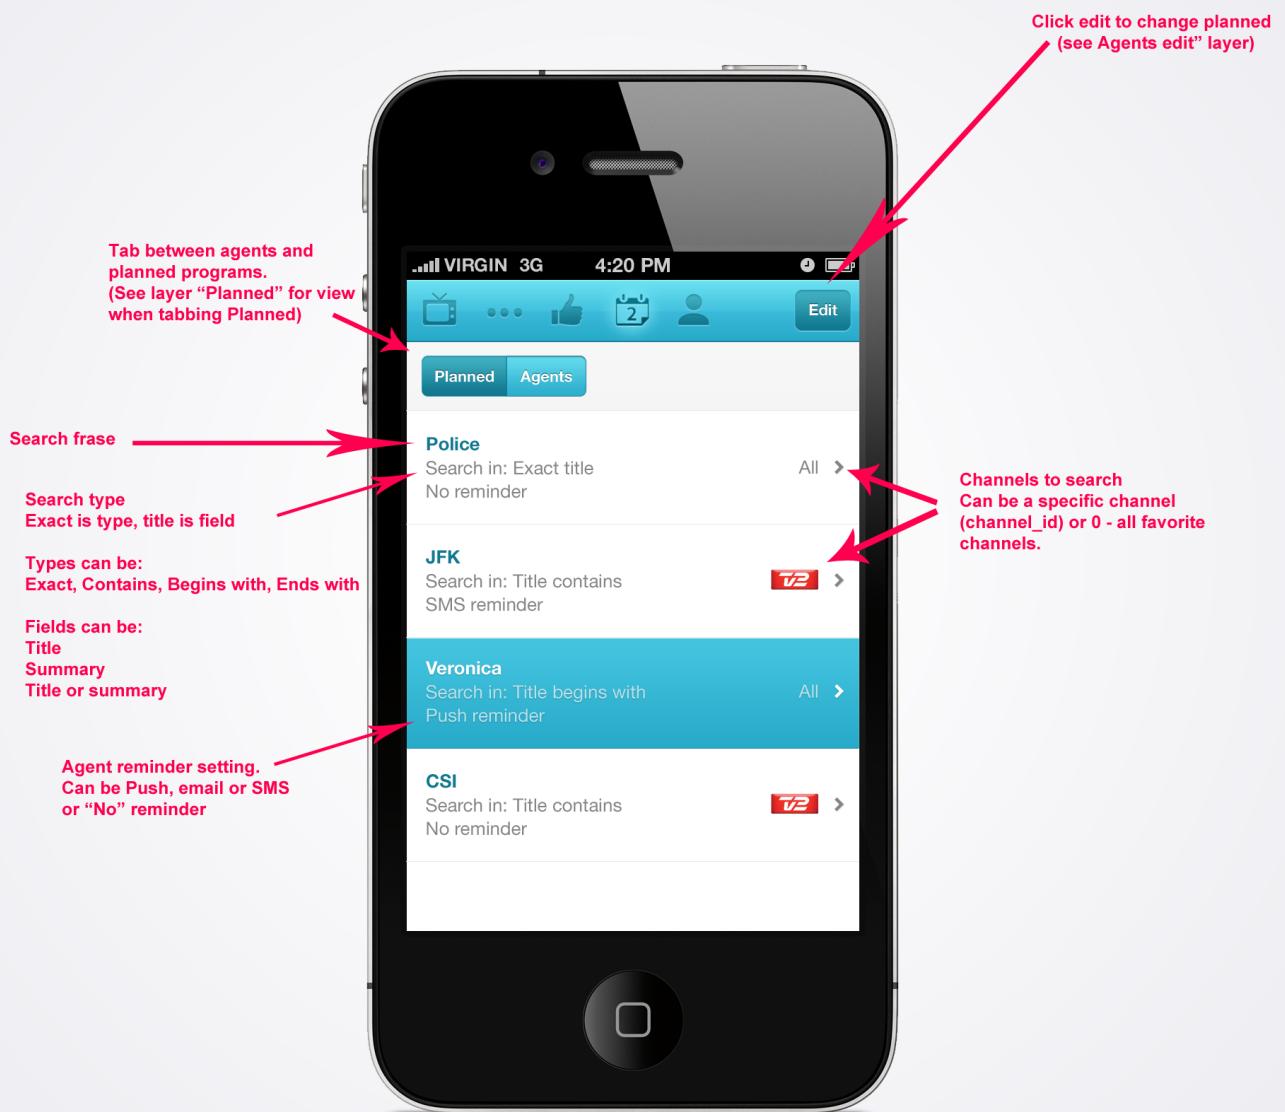

Guide shows "Today" per default
Tab here to change date.
(Text means "Shows: Today")

When normal users tabs here, they
see "Pro+ required" screen.
Pro/+ users gets a date picker.

Click on a row to get to the
program summary.

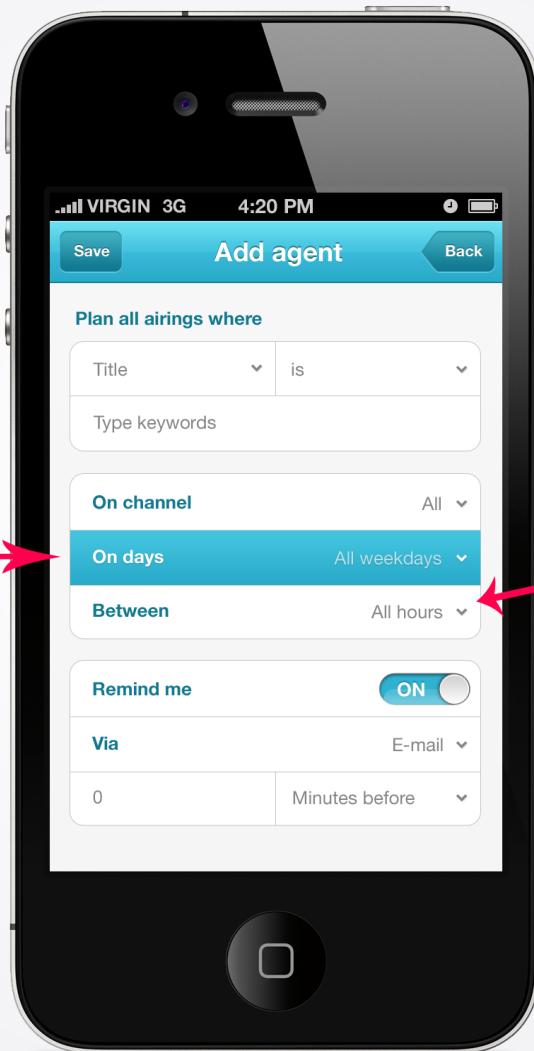

This screen is used for both add and edit agent

See layer Agent Add to see description for all fields, except fields commented in this view...

Pro users get a slightly different view.
On days fields is which days to agent may add programs
Possible values are:

- 0: All
- 1: Weekdays (mon-fri)
- 2: Weekends (sat-sun)
- 1: Mondays
- 2: Tuesdays
- 3: Wednesdays
- 4: Thursdays
- 5: Fridays
- 6: Saturdays
- 7: Sundays

Tells which hours of the day, that the agent may add programs.

Default value are all hours (0-24)
When tabbed both values are edited in same screen, with to iOS style clock pickers (See watch application in iOS)

Formation to API should be in the form:
start hour;end hour
(See api documentation)

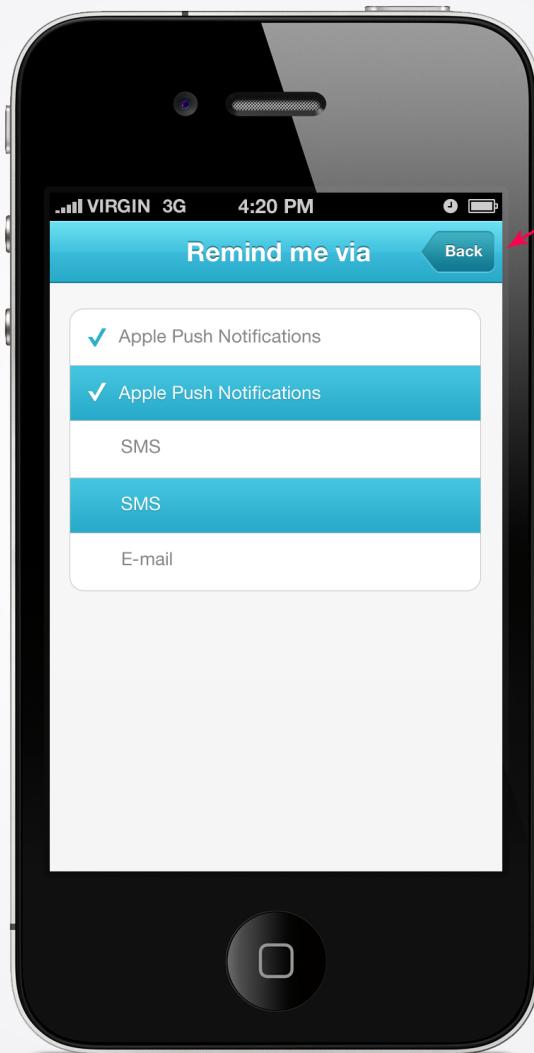

0;0 and 0 defaults to all
17;23 means program must be aired between 17:00 and 23:59.

Only whole hours can be selected.

When hours is selected "All hours" text is replaced with the hours selected in the format 17:00 to 23:59 e.g.

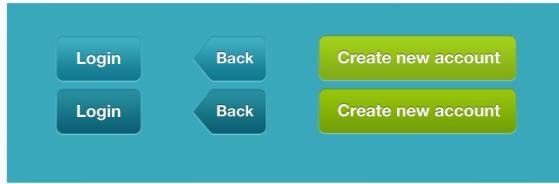

This is an example of the list layout to show for select fields.
The possible values for each field is described in its own screens.

When a value is selected or Back is tabbed, you get back to the form you came from.

Example of ad block.
The ad should be shown
through admob SDK.
(On all screens except splash,
login and create screens.)
This is sent earlier by email.
